I-CAN STUDENT

"We are a dichotomy,
but we are symbiotic."

"The I-CAN Design Thinking Course helped me to think differently, creatively and provided me with a structure for problem solving of many community challenges."

Eathan Ngume, a resident of Boston in Bellville. He completed his matric at Parow High School in 2020 and subsequently attended G-citi campus. STUDENT Notably, he achieved a position in the top three performers within his course, reflecting his commitment to academic excellence.

ACHIEVEMENTS

Top 3 at the ICAN Centre in 2022

HOBBIES

Long-boarding
Rugby
Reading

MAIN SOCIAL OR ECONOMIC ISSUE

Men's Mental Health

While Eathan's focus lies beyond entrepreneurship, his deep-rooted concern centres on men's mental health, an often overlooked social and economic issue. Understanding the unseen struggles that many men face, he is passionate about addressing this matter and raising awareness to promote well-being and emotional support for men in society. Beyond his advocacy for mental health, Eathan finds solace and passion in the activity of longboarding. For him, the exhilarating experience of passing an apex on a hill while riding his board creates a unique and liberating moment where it is just him and the board, free from any other distractions or concerns.

With a commitment to both personal growth and societal well-being, Eathan endeavours to shed light on men's mental health challenges, contributing to a more compassionate and understanding society. Furthermore, through his love for longboarding, he finds personal fulfilment and a sense of freedom, fostering his own well-being as he continues to navigate life's journey.
